AAC 'L' ITEM NSN 6515-01-571-7290

UAs: P301 , P307

USAMMA POC: Customer Relationship Management 301-619-1288/4301 - DSN 343-1288/4301

UNIT PRICE: \$8,065.17

System Description: The LF-GP is a complete, all-in-one, portable solution for emergency, bedside, operating room, and ICU tracheal intubations. Compatible with single-lumen endotracheal tubes with an internal diameter as small as 5 mm, as well as double-lumen tubes 37 Fr or greater, the LF-GP is the most versatile scope of the PortaView-LF series. The scope's superb optics and integrated miniature light source result in bright, high-resolution images for observation. In addition, the LF-GP offers an expanded view-field size -- 2.2x larger than our LF-2 Scope -- for even greater image detail.

- Features:**
- Integrated miniature light source for portability
 - 4.1 mm insertion tube outer diameter allows for easier insertion
 - 1.5 mm channel provides for increased suction capability
 - Olympus optical technology produces high-quality images for observation
 - Extended battery life
 - Waterproof for thorough reprocessing
 - Compatible with conventional light sources and video systems for versatility
